

L I / T R O N

*Business Continuity
Policy*

1.0 Scope/Purpose

This policy defines the framework for establishing a Business Continuity Management System for Litron, Inc. business operations.

2.0 Business Continuity Framework

2.1 Litron, Inc. has defined the framework for setting forth continuity objectives through documented procedure PR5.4, Business Continuity Plan. The plan defines and documents the objectives necessary to ensure the continuity of Litron's products and services delivered by the RF Packaging, Laser Systems, Laser Welding/Cutting, and Medical Device Assembly operations with respect to:

2.1.1 Risk Management

2.1.2 Disaster Recovery

2.1.3 Facilities Management

2.1.4 Mass Absentee Planning

2.1.5 Quality Management

2.1.6 Health & Safety

2.1.7 Knowledge Management

2.1.8 Emergency Management

2.1.9 Security

2.1.10 Crisis Communications

3.0 Commitment to Satisfy Applicable Requirements

3.1 Litron leadership is committed to complying to the requirements of the ISO 22301:2012 standard for Business Continuity Management Systems.

3.2 Litron leadership is committed to complying with the individual requirements of our customers, as set forth in Supplier contract requirements or Supplier flow-down of Quality/Continuity Requirements.

4.0 Continuous Improvement of the Business Continuity Management System

4.1 Litron leadership is committed to the continual improvement of the BCMS through regular management reviews of the existing PR5.4 procedure and supporting activities.
